

RAW MATERIAL SPECIFICATIONS

| | | |
|---|---|--|
| HDPE | Mobile Garbage Bins | Wheels and axles must be removed except for the bottom bin to allow easy movement of stacks of 13 bins. |
| | | Lids dismantled, palletised and strapped. |
| | | Labels removed. |
| | | Pressure cleaned internally and externally. |
| | | Stacked approximately 13 high. |
| | Poly Pipe, Offcuts, Shavings | Where possible baled into blocks - 750mm x 750cm x 1200mm with a minimum of 3 lateral straps (dependant on size of pipe). |
| | | Accepted pipe lengths of 3-20m with a diameter of 100mm-1200mm. |
| | | Bale weight should be between 240-320kg |
| | | Broken bales will be rejected. |
| Contaminated bales will be rejected. Contaminants include: oil, soil, plastic film bags, paper, metal, glass, timber, stone, packaging tapes, PET, PVC. | | |
| PP | Buckets, crates, bottles, tubs. | Where possible baled into blocks - 750mm x 750cm x 1200mm with a minimum of 3 lateral straps, placed on a pallet and shrink wrapped. |
| | | Each bale should be tagged with the suppliers name, date of packaging and weight. |
| | | Bale weight should be between 260-320kg |
| | | Broken bales will be rejected. |
| | | Contaminated bales will be rejected. Contaminants include: oil, soil, plastic film bags, paper, metal, glass, timber, stone, packaging tapes, PET, PVC. |
| LDPE | Rotational Moulding offcuts, reject tank waste | Offcuts are to be cut to size and put inside reject tanks or into packaging provided such as cages or bales. |
| | | Material containing contaminants such as metal taps or pipe fittings will be rejected. |
| | Films - loose | Must be baled into blocks 750mm x 750mm x 1200mm with a minimum of 2 lateral straps. 2-4 bales per pallet and strapped for transport or put into packaging provided. |
| | | Each bale should be tagged with the suppliers name, date of packaging and weight. |
| | | Bales should weigh between 40-250kg |
| | | Bales should be free from contaminants such as: Laminated plastic, HDPE, paper, metal, glass, timber, stone, PET, PVC, oil, grease, soil, or they will be rejected. |
| | Films-rolls | Must be placed inside stillages and strapped for transport on pallets. |
| | | Bales should be free from contaminants such as: Laminated plastic, HDPE, paper, metal, glass, timber, stone, PET, PVC, oil, grease, soil, or they will be rejected. |
