

How is the Slipsheet Used?

STEP 1 – Equipment

Push/Pull Attachment must be fitted to the Forklift

STEP 2 – Loading the Slipsheet

Extend the Push/Pull

STEP 3 – Grip the Slipsheet Pull Tab

Grip the Pull Tab

STEP 4 – Pull the load back onto the Forklift

Using the Pull Tab pull the load back onto the forklift

How is the Slipsheet Used?

STEP 5 – Unload from the Forklift

1. Position the load over the unloading point (truck deck)
2. Release the Pull Tab gripper
3. Simultaneously extend the Push/Pull attachment as you reverse

STEP 6 – Captive Pallets

The **CAPTIVE PALLET** process has the following features:

- ✓ The product can be stored on the slipsheet on certified pallets
- ✓ Utilise existing pallet racking
- ✓ Pallets are captive within the plant/warehouse
